

# Peer Grief Support Groups For People in Recovery

For anyone 18 or older who identifies as a person in recovery.

*We offer peer grief support to people in recovery who have experienced the death of someone they care about from any drug-alcohol-related cause. You are welcome to attend no matter what your relationship to the person is or how substances took their life. We consider people in recovery simply to be folks looking to change their relationship with alcohol and other drugs. All recovery paths are welcomed and honored in our groups. Our only purpose is to help each other cope with our grief.*
